

UNIVERSITÀ DI PISA

INTERNATIONAL CONFERENCE ON-LINE

22 and 23 February 2021

THE CONTRIBUTION OF DIALOGICAL PRACTICES IN COMPLEX ORGANIZATIONS "Dialogue: a necessary utopia?"

Key questions:

Was this year horribilis the most dialogic year of the 21st century?

"What impact does or could the future have of dialogic practices in organizations?"

"Can the dialogic approach conveyed through the screens become a simulacrum?"

Is the free-to-attend international conference promoted by the University of Pisa which has been interested in the topic of dialogical practices for some time and by DPC&M Dialogical Practices Coaching & Mindfulness www.DialogicaMente.it.

The conference is a unique opportunity on the national scene to learn about the potential of **dialogic practices** in everyday life and, in particular, for those who work in organizations and in helping relationships.

It also represents an energetic accelerator of hope, a help to face this long period of relational distancing.

Scientific organization director **Dr. Ciro Conversano**
Head and coordinator of the scientific committee **Dr. Marco Braghero**
